Information in this leaflet is current as of July 1, 2016. “Okayama’s Fruit Parfaits” are seasonal products made from fruit perfectly in season. Therefore, the items listed here are just examples of what might be available. According to when various fruits are harvested, there will be changes in the types of fruit used and the content and design of the parfaits. The listed prices also are subject to change, depending on harvest conditions, delivery, and volume of production. Depending on the delivery of the fruit, there are times when these shops will not be able to sell their parfaits or when they run out of fruit and must close shop early. The business hours and regular days of closure are for normal periods. Schedules are different at the end of the year, on holidays, and during extended vacations. Please contact the shops directly for more information.

Enjoy all sorts of parfaits made with seasonal fruits.

Before going to these shops, be sure to confirm that they are open and have parfaits available.
